

Expanded polystyrene foam for laminates and parquet

Composition: Expanded polystyrene foam (EPS) with vapour barrier

Characteristics		Test method
Article code	0602000	
Description	Selitflex 1,6 mm	
Dimension	1,20 m x 15 m = 18 m ² + tape	
Quantity per pallet	21 packs of folding panels	
Ean code	4002245732186	
Compression strength	3,1 t/m ²	
Thickness	1,6 mm	
Colour	White / gold	
Impact sound insulation	20 dB (Δ L _w)	ISO 140-8
Thermal conduction resistance	0,040 m ² K/W	
Deflection temperature under load	Up to 60 °C	
Compatibility with underfloor heating	Suitable for laminates up to 11 mm	
Fire protection classification	E	EN 13501-1
Vapour permeability value	Sd > 100 m	DIN 52615

The data given above may vary within certain limits and is partly based on suppliers information. It is not binding in a legal sense. The compliance of legal requirements lies within the customers own responsibility.
